

# *Support • A • Senior!*

Mr. A. is an 88 year old man living alone in his Goochland home. He has diabetes and another serious condition which requires weekly monitoring by his doctor. Senior Connections, The Capital Area Agency on Aging was able to provide **Care Coordination Services** to assess his needs and enroll him in several of the Agency's in-home programs including **Home Delivered Meals**. Our **Money Management Program** is helping to ensure that he has regular assistance with bill payments and budgeting for necessities with his limited income.

The Care Coordinator partnered with other community agencies to meet Mr. A's **transportation needs** as well as paying for a year of **personal response system** after he fell in his home and couldn't call for help. Unfortunately, this sponsorship is coming to an end even though Mr. A. still needs a personal response system to remain safe in his home.

Through your donations, we can continue to help Mr. A and other like him. If you are able to help us help Mr. A. or other older adults facing financial crisis in emergency situations, please make a donation to:

**Senior Connections Support A Senior Program  
24 E. Cary St., Richmond, VA 23219**

**THANK YOU FOR YOUR SUPPORT!**
